

January 2017

A lovely afternoon spent viewing a sideshow of all the places we had visited in the first year, 2016, of our Local & Social History group. Some of the scenes produced much hilarity and many happy memories.

We welcomed four new members, who introduced themselves and their family history to the group. We adopted this way of making new members feel very welcome and it works! This also how we decide on the monthly themes, as there then will always be members who can contribute their experiences to the themes chosen.

We talked about our wartime project for November 2017. We aim to produce information listing all the details of service personnel who have a War Graves Commission headstone in any of our local area cemeteries. Hopefully we may be able to secure funding to have the project printed.

We finished off the afternoon with a quiz, "All about Kidderminster". Many members scored very highly, well done!
